

The October Cape Fear Skies was not officially published, because the editor was traveling.

The following items were in the email list in lieu of a newsletter:

October 4 - International Observe the Moon Night @ Cape Fear Museum
5:30 PM set up for the 6 PM to 8 PM event.

October 19 - Meeting at Ingram Planetarium

For October, we're going on a field trip to the Ingram Planetarium. Because they rented the planetarium out to a third party for the Sundays through early October, we rescheduled the October Cape Fear Astro meeting to Sunday, October 19th. At this point i'm still negotiating with the planetarium, and we may need to start earlier than 7pm in order to meet the needs of the staffer taking an unusual shift to accommodate us. We'll be getting a group rate, with each visitor needing to pay for themselves. If we cannot get enough people to meet the \$80 minimum payment, the club will cover the difference. - Jon

No President's Message this month.

With Nominations coming for Club Elections, I'll take this opportunity to say that I will not be rerunning for Associate Vice President. Time for some younger members (that's probably you) to take over.
